

Frequently Asked Questions

Q: Is your price for one bed rail?

A: No, we ship in pairs, always.

Q: I have a queen size sleigh bed do I need queen/king bed rails?

A: No. Most bed designs, including the queen sleigh, use our standard twin/full bed rails.

Q: Will your bed rails fit the slot pre-cut into our head and footboard?

A: Yes. We use a ½ "bed lock," which is standard in the industry.

Q: Are your bed rails made of solid lumber?

A: No. Solid lumber will warp over time. Therefore, we use a heavy plywood core and apply a quality veneer over the core for finishing in four options: dark cherry, light pine, medium oak, or unfinished

Q: Will your center support fit my bed?

A: Our center supports are designed to fit all wood bed rails. They adjust from full to king size.

Q: What is your return policy?

A: We gladly guarantee all products against defective materials and workmanship.
